1. Claims 1-4 are allowed.
2. The claims are allowable over the prior art for at least the reason that the prior art fails to reasonably teach or suggest in claims 1 and 3 that a drum comprising a positioning member rotatably connected to said cam member, a second pin rotatably connecting said positioning member with said cam member, said positioning member comprises a slot passing therethrough, and said cam comprises a female thread for engaging said set screw, and said set screw fastens said positioning member onto said cam core through said slot, wherein said positioning member is adjustably positioned onto said cam core by said set screw and said female thread while said cam core remains affixed to said rotating shaft to thereby adjust the eccentricity of said cam system as set forth in the claimed combination.
3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shih-yung Hsieh whose telephone number is 571-272-2065. The examiner can normally be reached on 7:00-3:30.
